ABOUT

Hi, I'm Haneen, a highly motivated frontend web developer with over 3 years of experience building user-friendly websites using HTML, CSS, JavaScript, and Bootstrap. I specialize in creating dynamic and responsive web applications with a strong understanding of React.js. I'm currently enhancing my skills by learning TypeScript to further improve the quality and scalability of my web solutions. As a final-year software engineering student at Al-Azhar University, I blend academic knowledge with hands-on experience to deliver high-quality web applications. I'm always eager to explore new frameworks and technologies to stay up to date with industry trends.

EDUCATION

Al-Azhar University Bachelor's in Software Engineering	<i>Gaza Strip, Gaza</i> Sep, 2019 – Present
Ahmed Shawqi Secondary School for Girls	<i>Gaza Strip, Gaza</i> Aug, 2016 - Sep, 2019
